

# CSWC Operational Period Summary 1800 May 10 to 0600 May 11 2014

Fix50 Project Update: May 9, 2014 Caltrans photograph

# **SITUATION SUMMARY**

## **Significant Weather Watches and Warnings**

### **High Wind Warning:**

- In effect until 1700 this afternoon for the upper Colorado River Valley of San Bernardino County

### **Red Flag Warning:**

- In effect from this morning through Tuesday evening for areas in Los Angeles, Ventura, Orange, San Bernardino, Riverside, San Diego Counties
- In effect from this morning through this afternoon for areas in Riverside, San Bernardino and Imperial Counties

### **Cal EOC Incident – 2014 Drought**

- SOC / Inland REOC remains activated in support of 2014 Drought

### **Major construction U.S. Highway 50, Sacramento, Sacramento County**

- Please see “Fix 50” slides for additional information, including [alternate routes](#).

## **“Fix 50” Information**

### **Major construction U.S. Highway 50, Sacramento, Sacramento County**

- Major construction is underway on a section of U.S. Highway 50 in Sacramento between 18th and 24th Streets.

### **2014 Project Dates**

### **Roadway Construction Timing:**

**Eastbound Highway 50: April 22 – May 21**

#### **Phase 2: May 2 - May 21**

- During Eastbound, Phase 2 (May 2 – 21), the following ramps will be closed: - 16th Street On-Ramp - Connector ramp from eastbound Highway 50 to southbound Highway 99 - Connector ramp from eastbound Highway 50 to eastbound Business 80
- At least 3 lanes will be open
- Westbound traffic will be fully open as normal with no impact.

## **“Fix 50” Information (Cont.)**

### **Major construction U.S. Highway 50, Sacramento, Sacramento County**

#### **Alternate Routes:**

**During work in the EASTBOUND direction (April 22 – May 21):**

#### **If traveling from Elk Grove/Laguna to Rancho Cordova/Folsom:**

- Use Freeway-99 North to US-50 East
- Do **not** use I-5 North to US-50 East

#### **If traveling from Davis to Downtown Sacramento:**

- Use I-80 to I-5 South, to Richards Blvd or “J” Street off ramps
- Do **not** take I-80 to US-50 East

#### **If traveling from Natomas/Davis to Rancho Cordova/Folsom:**

- Use I-80 East to Watt Ave exit-South to Business-80 on-ramp to US-50 East.
- Do **not** use I-5 to US-50 East.

#### **If traveling through the project area during Phase 2 (Closed connector ramps to Business-80 and Freeway-99):**

- Use Hornet Drive (Howe/Power Inn exit) to turn around onto US-50 West

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

Strong high pressure building over northwest California today will cause quickly warming temperatures. This pattern will continue through midweek under generally skies and light offshore winds.

#### **San Francisco Weather:**

A substantial warming trend is forecast early this week as high pressure builds along the West Coast and weak offshore flow develops. Temperatures are forecast to reach their peak on Tuesday and Wednesday with daytime temperatures climbing into the 80s and lower 90s near the coast, and 90s to around 100 inland. Cooling will begin near the coast on Thursday and in all areas on Friday. Much cooler weather is forecast by next weekend.

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY**

#### **Sacramento Weather:**

Breezy north to northeast winds today. Warming trend into midweek bringing temperatures around 15 degrees above normal and near record high temperatures for Wednesday and Thursday as upper level ridge builds over the area. For next weekend, there will be cooler temperatures in the forecast area.

#### **Hanford Weather:**

Breezy to windy conditions will continue over the area through this morning. Daytime temperatures will be near to slightly below normal through today. A rapid warming trend will then begin on Monday as high pressure strengthens over the area.

## **WEATHER SYNOPSIS BY REGION: (Cont.)**

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

A surface high will build into the Great Basin today and will bring northeast winds to the area. The winds will weaken on Monday and then become stronger on Tuesday and Wednesday. Overall, an extended period of near record heat and dry conditions with gusty Santa Ana winds expected through most of next week.

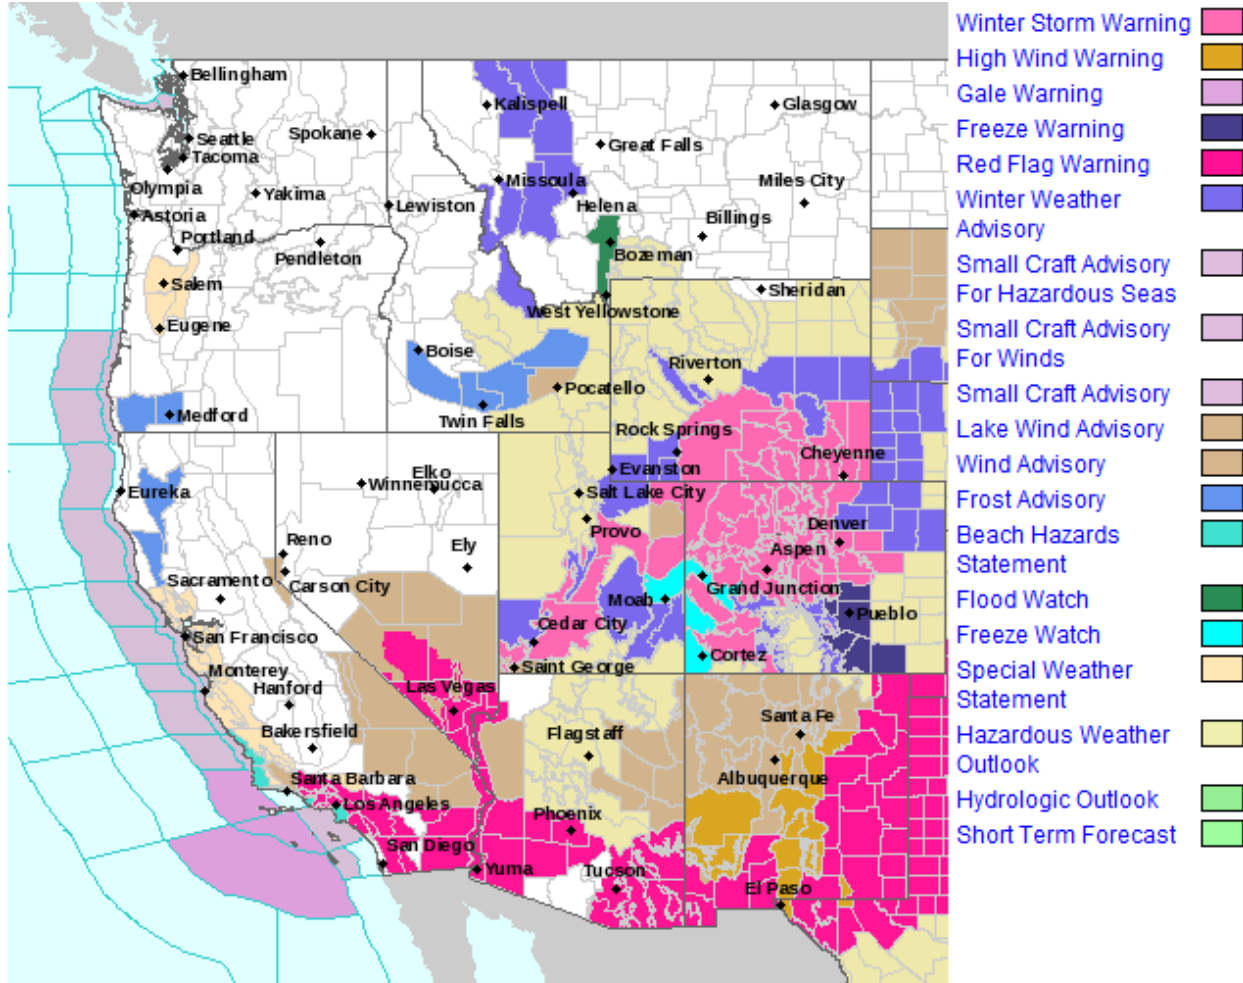

#### **Extreme Southwestern California Including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

High pressure aloft near the West Coast and surface high pressure over the Great Basin will bring a warming trend through Wednesday with gusty Santa Ana winds. A trough of low pressure moving inland along the West Coast next weekend will bring cooling and a return of the marine layer.

#### **Southeast California Weather:**

A dry cold front will bring significantly cooler temperatures to the region today along with breezy to windy conditions and the possibility of blowing dust. Under high pressure and sunny skies, temperatures will gradually rebound into the upper 90s/lower 100s by the middle and end of the next week.

# **CAL OES DROUGHT ACTIVATIONS**

## **Cal EOC Incident – 2014 Drought**

- The SOC is activated at Level 2 in support of the Drought State of Emergency from 0800-1700 hours daily.
- The Inland REOC is activated at Level 2 from 0800-1700 Monday through Friday or as needed.
- The Southern REOC is activated at Level 1.
- The Santa Barbara County OA EOC is activated at Level 2 to be handled by the duty officer for the purpose of monitoring activities and gaining situational awareness. The operational period is 0800-1700 hours.

## **Cal EOC Incident – 2014 Drought**

### **Situational Summary**

On January 17, 2014 Governor Edmund G. Brown proclaimed a State of Emergency and directed state officials to take all necessary actions to prepare for drought conditions. The State Operation Center (SOC) is activated to implement objectives in support of the Governor's priorities. The lack of winter rain and snowfall has resulted in extremely dry conditions in many parts of the State. Reservoir levels are down significantly from where they should be on average for this time of year. If conditions continue without substantial rainfall, severe impacts to municipal water supplies, agriculture (plants and livestock) and firefighting capabilities are likely in store for the State over the next few months. Negative economic impacts will also result.

**\*\*As our state's rainy season comes to an end, it is highly unlikely that precipitation totals will increase significantly. This winter's below average rain and snowfall worsens conditions in this third straight dry year.\***

The drought could result in severe impacts to the municipal water supplies, wells, agriculture (plants and livestock) and firefighting capabilities for several months. The SOC continues to be activated to monitor the situation statewide, and support regional and local operational areas.

## Situational Summary (Cont.)

- The Taskforce continues to meet regularly to take actions that conserve water and coordinate state response to the drought.
- The most recent snowpack survey, conducted on April 1, recorded California snowpack at 32% of normal. A more recent update using automated devices shows snowpack at 19% of normal as of April 20.
- DWR has announced that water essential for health and safety will be delivered through the state water project in spite of the zero allocation policy. Deliveries will be boosted if storms produce enough rain and snow to increase reservoir storage and the snow pack.
- Cal OES continues to gather drought-related costs from state agencies and local governments.

# CAL OES MISSIONS

## New Cal OES Missions

- **2014-LAW-3081** Air Force Recue Coordination Center (AFRCC) advised of an active Personal Locator Beacon (PLB) sounding in Placer County. Cal OES LDO coordinating resources to locate and silence PLB.

## Ongoing Cal OES Missions

- **2014-LAW-2843** Plumas County Sheriffs Office (PCSO) is requesting Search and Rescue resources in support of a Humans Remains search Southwest of Lake Almanor. County SO will be providing 2-3 Humans Remains Detection (HRD) K9s for search efforts. Searches conducted on 5/3 and 4, located several items of interest. Plumas County personnel plan on returning for additional searches on or about 5/9/2014.
- **2014-LAW-2798** El Dorado County is planning an in-county SAR exercise on 07/15/14 for their volunteers and have requested the assistance of the California National Guard (CNG) aviation assets to support the exercise. Elements of the exercise will include an orientation to the various CNG air assets (H-72, H60 and CH47), hoist training, patient packaging for air evacuation and ground team insertion and extraction training.
- **2014-LAW-2679** The 95th CST will provide Joint Hazard Assessment Team support in support of SFPD's Special Operations Bomb Squad at the 2014 Bay to Breakers Marathon. Radiation detection teams will survey background levels of radiation as part of the overall security plan. The 95th deployment will include advanced planning and pre-positioning prior to race day.

# CAL OES MISSIONS

## Ongoing Cal OES Missions (Cont.)

- **2014-LAW-2483** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the IRL Racing Event at Sonoma Raceway August 22-24, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2481** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NHRA Racing Event at Sonoma Raceway July 25-27, 2014. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-LAW-2478** The 95th CST will provide area monitoring, secure communications, and WMD expertise for the NASCAR Racing Event at Sonoma Raceway June 20-22. They will assist with advanced planning and be pre-positioned prior to the start of the event.
- **2014-SOC-2111** Mission is to test the Cascadia Subduction Zone (CSZ) air bridge concept by air transporting 7 passengers from OES and 1 CANG logistics planner on 13 May 2014 from Mather to the State Staging Area (SA) in Redding, to one POD in Del Norte and one POD in Humboldt, to the Redding State SA, and return to Mather. Passengers will discuss actions at the Redding SA and at each OA POD while they are at each location. The air bridge is a critical component to CSZ response and recovery. It is imperative this concept is tested to ensure response teams can be successfully transported into the effected region and the affected Operational Areas' are able to receive aircraft at designated PODs.

## **UPCOMING EVENTS, TRAINING, EXERCISES**

### **Diablo Canyon Power Plant Full Scale Exercise**

Diablo Canyon Power Plant in San Luis Obispo will be hosting a full scale Hostile Action Based FEMA evaluated exercise on May 21, 2014. This is part of the required biennial demonstration of our ability to protect the public from a radiological incident at the nuclear power plant.

**Mission:**

We protect lives and property, build capabilities, and support our communities for a resilient California.

*We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.*
